Important Notice: Read the entire label. Use only in accordance with the label instructions. Use in conjunction with a normal fertilizer program. Nutriplant® SD is intended as a supplement to a regular fertilizer program and will not, by itself, provide all the nutrients normally required by plants.

Information regarding the contents and levels of metals in this product is available on the Internet at http://www.aapfco.org/metal.htm

Application: Apply Nutriplant® SD to the seeds before planting. Application should be made in such a way that all seeds are thoroughly coated. Fill seed hopper box half full of seeds, apply half of the recommended dosage of Nutriplant® SD and stir completely. Fill the hopper box with the remaining seeds, spread the balance of the recommended dosage of Nutriplant® SD on top of the seeds and stir again. Keep seeds dry until planting.

Storage: Store at temperatures below 110°F (43°C). Keep container tightly closed. Do not store in direct sunlight.
